Third party developers can extend Construct 3 with new plugins, behaviors, effects and themes (collectively referred to as "addons") using the **Addon SDK**. Addons are typically distributed as a **.c3addon** file.

HOW TO USE

1. Config plugin
2. Initial plugin
3. Interstitial Banner Ads
4. Rewarded Video Ads
5. Publish it

1	 System	On start of layout	 Motus	Init
				Add action
2	 Motus	On SDK Initied	 TextBox	Set text to Self.Text&newline&"Init !!!"
				Add action
3	 Motus	On Video Error	 TextBox	Set text to Self.Text&newline&"Video Error"
				Add action
4	 Motus	On Video End	 TextBox	Set text to Self.Text&newline&"Video End"
				Add action
5	 Motus	On Banner Error	 TextBox	Set text to Self.Text&newline&"Banner Error"
				Add action
6	 Motus	On Banner End	 TextBox	Set text to Self.Text&newline&"Banner End"
				Add action
7	 OK banner	On clicked	 Motus	Show Banner Ads
				Add action
8	 OK video	On clicked	 Motus	Show Video Ads
				Add action
9				Add event

Motus plugin is based on
HTML5, jQuery for
Construct 2/3.

It will not support without any above requirements

Config plugin

First of all, the plugin interacts with SDK and make you can config it. You can check it on **Properties** of plugin.

You will provided a unikey key for each publisher for Banner Inerstitial and Reward Video .

Motus SDK URL is
<http://api.motus.aero/js/>

Name	Motus
Plugin	Motus
[-] Properties	
Interstitial Banner Ads ID	fc19776d-6c58-42c1-806a-21f00819b...
Rewarded Video ID	A64C2DE3-9DE4-48A2-AA9C-61C280...
Motus SDK URL	http://api.motus.aero/js/
More information	Help

Config your setting in plugin

Initial plugin

Add action **Motus Init** for loading SDK on system start of Layout .

1	 System	On start of layout	 Motus	Init
			Add action	
2	 Motus	On SDK Initd	 TextBox	Set text to Self.Text&newline&"Init !!!"
			Add action	

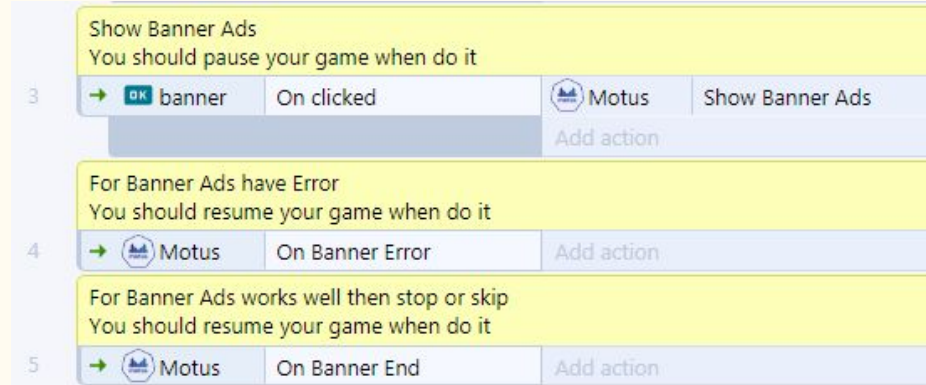

Initial plugin

Interstitial Banner Ads

For showing the interstitial banner ads, you can call action **Show Banner Ads**.

We also provide two events

- **On Banner Error.** Sometimes we don't get an advertisement based on the analytics so you have to continue the game
- **On Banner End.** Normally you should continue the game

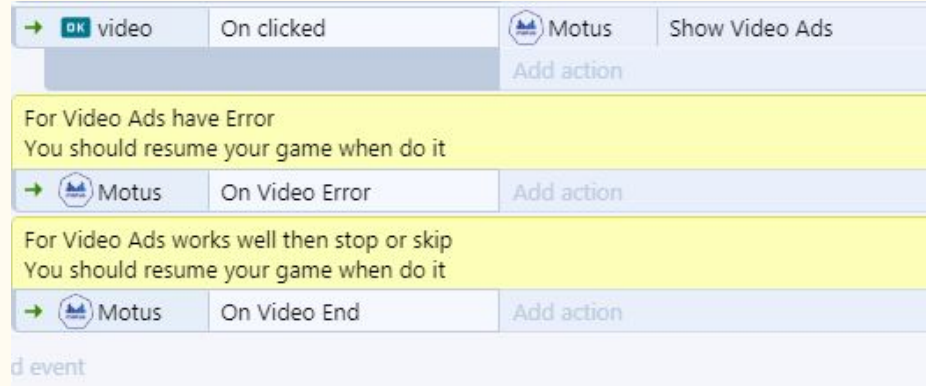

Rewarded Video Ads

For showing the rewarded video ads, you can call action **Show Video Ads**.

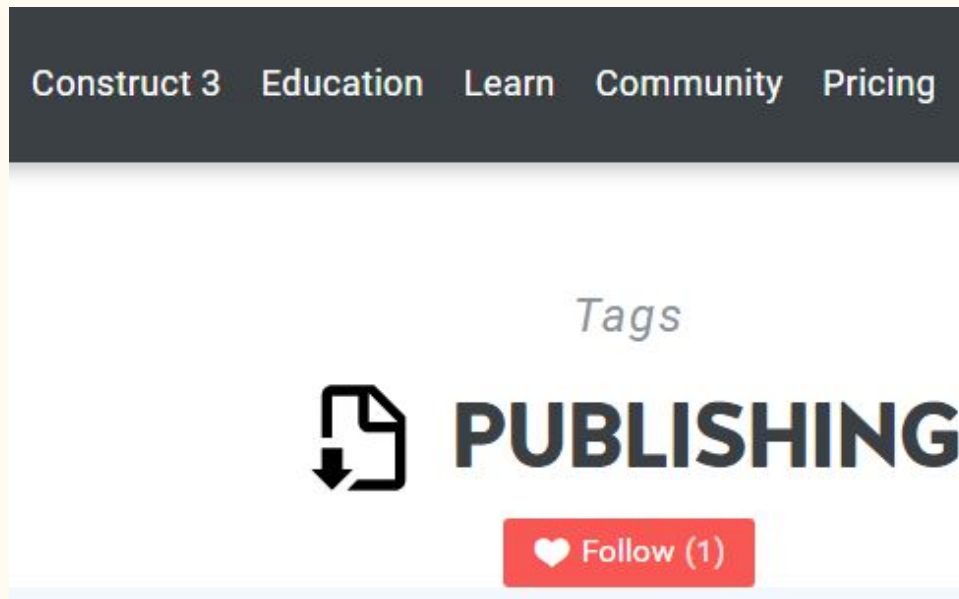

We also provide two events

- **On Video Error.** Sometimes we don't get an advertisement based on the analytics so you have to continue the game
- **On Video End.** Normally you should continue the game

Publish your game/app

Follow some awesome guide, you can publish your game/app with any platform as you want
